

WEEKLY SCHOOL NEWS

School Concert Designs

Every student from K-9 drew a special design for the School Concert competition. Their artworks will soon be on display in their classrooms for our enjoyment. On the final day of last term, the winning designs from each class were announced to the school and projected on the screen in AH2. Special awards were presented for the DVD cover

We can't wait to perform for you at the School Concert on Friday 3 November (details to come)!

CERAMICS!

This week the classes in the primary school in both divisions welcomed Kris to our school. Kris is a ceramics specialist who showed the children how to create fabulous pieces with clay.

The children learn how to treat the clay, how not to overwork it so that it wouldn't dry out, how to make strong joins and how to shape the clay.

When they had finished their artworks they learnt how to make the clay smooth ready to fire in the kiln.

All the classes made different things and all of them learnt a lot. We are looking forward to seeing Kris again in a few weeks so that we can glaze our creations.

Y1 NIHONGO 3—LOOKING FOR THE SIGNS OF SPRING!

Welcome back to the last term of 2017. The topic for Year 1 Nihongo 3 students in this term is “Seasons”. The children will increase their vocabulary about each season through reading poems and stories, watching videos and through discussion. This week we got out of the classroom and took a tour around the school yard to look for things about springtime. We found so many things which represented spring! たんぽぽ (dandelions), なのはな (canola blossoms), ちょうちょ (butterflies), みつばち (bamboo bees), アジサイのつぼみ (hydrangea buds), etc. Yes! Spring is right here! We saw it and we felt it! The children wrote down and drew what they saw. Later they will write poems about each season and will type them on the computers. At the end of this term we will make a 2018 calendar using their poems. Isn't it exciting!?
